Fortune Global Top 100 companies are among our customers

2800+
team members across 15 offices and additional remote locations

We're the minds behind

IntelliJ IDEA   PyCharm   CLion   Kotlin

...and over 30 more products!

Internships at JetBrains

At JetBrains, interns work on real projects that they choose themselves during the application process. No assisting or observing – you get to be a full member of the team. From your very first day, you will enjoy autonomy, responsibility, and mentorship.

And yes – it's a paid internship, because your work has real value.

Software Development **Data Analytics** **Research**

Frontend **Machine Learning** **DevOps**

Project/Product Management **QA** **UX**

Enjoy your flexible hour schedule

Choose between full-time or part-time

You can apply during your 1st year!

Work fully remotely or in our Warsaw office
