SENIOR DATABASE DEVELOPER

Jana Heweliusza 18, Gdańsk,
80-890, Poland

We have an opportunity for a Sr Database Developer (SQL) to join us at Honeywell in Gdansk, Poland. This is a hybrid role, 3 days at the office + 2 days work from home model.

You will drive the development of software that meets the needs of customers by refining/reviewing requirements, architecting and designing a software solution, planning and estimating development work, implementing the software solution, assisting with or writing test plans and documentation, and maintaining the solution.

RESPONSIBILITIES

- Design, develop, and maintain database systems to meet business requirements
- Optimize database performance and ensure data integrity
- Collaborate with cross-functional teams to gather and analyze data requirements
- Create feasibility studies and high level estimations
- Troubleshoot and resolve database issues

MUST HAVE

- 5+ years of experience in database development and optimization
- Excellent T-SQL programming skills
- Excellent knowledge of MS SQL Server database

- Excellent problem-solving and troubleshooting skills
- Ability to analyze and optimize database performance

WE VALUE

- Bachelor's degree in Computer Science or a related field
- Strong communication and collaboration skills
- Ability to work effectively in a team environment

OUR OFFER

- A culture that fosters inclusion, diversity, and innovation in an international work environment
- Market specific training and ongoing personal development.
- Experienced leaders to support your professional development
- Medical coverage
- MultiSport Card

EQUAL OPPORTUNITY STATEMENT

We are an equal opportunity employer and value diversity at our company. We do not discriminate based on race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status. We will ensure that individuals with disabilities are provided reasonable accommodation to participate in the job application or interview process, to perform crucial job functions, and to receive other benefits and privileges of employment. Please contact us to request accommodation.

Join a team recognized for leadership, innovation and diversity.

Honeywell Building Automation is transforming the way every building operates to help improve the quality of life for the people who use them. With a portfolio featuring software, hardware and services, Honeywell takes an outcome-focused approach to help building owners and operators improve safety and security, energy and operational efficiencies to create a better building experience.

Helping to Transform Buildings to be Safer and More Operationally and Energy Efficient.

Join us now and be part of a global team of thinkers, innovators, dreamers, and doers who make the things that make the future!
